

WE'RE HIRING · SPRING 2027

Graduate positions at AIN Lab

Applied INtelligence Lab · Dept. of AI·SW,
Graduate School of AI·SW, Kookmin University.
From raw data to applied intelligence.

Master's · 24 months

Ph.D. · 36 months

Kookmin University

SUPPORT

Funded for the whole program

Master's

24 months

Ph.D.

36 months

Gross base stipend per month

~1.2M KRW

May be adjusted depending on funding.

- ✓ Tuition fully or partially waived
- ✓ Publish in top SCI journals
- ✓ Work on current NRF projects
- ✓ Work in a young and vibrant environment

RESEARCH AREAS

Core domains

From raw data to applied intelligence.

DATA

Sensor & multimodal inputs

Time-series & sequence streams

Representation & features

INTELLIGENCE

Deep & sequence learners + transformers

Ensembles & optimization

Explainability & structured models

APPLICATIONS

Health & human systems

Agri / environment / energy

Industry & security

RESEARCH

Current projects

Physics-Informed XAI for Flood Prediction and Lead Time Optimization

2026–2031 · PI

XAI-Framework for Heterogeneous Data

2026–2029 · PI

Priority goes to candidates matching our current **NRF projects**. Excellent candidates in other fields may be recommended for the **GKS university track**.

FIELDS AND OPENINGS

Who we're looking for

Mathematics

Computer Science

Physics

AI & Software

Computational Environmental

Industrial Engineering

Related fields

POSITIONS

0+

The number depends on candidate match. If no one matches, no one will be hired. More qualified candidates may be considered for other alternatives when available.

REQUIREMENTS

Academic profile

- ✓ **CGPA percentile of 85% or above**
- ✓ **Ph.D.:** first-author paper in a reputable SCI journal or outstanding CS/AI/DS conference ([full list](#))
- ✓ **Master's:** first-author paper in a reputable international journal or conference indexed by SCOPUS
- ✓ All publications must have a **DOI**
- ✓ **Language:** IELTS 6.0 or TOEFL iBT equivalent
- ✓ Degree from a **reputable university**

YOUR APPLICATION

What to share

- ✓ Google Scholar link and/or selected papers related to our fields, with DOI
- ✓ Link to your university's website
- ✓ Institutional email of your previous advisor or supervisor
- ✓ Self-introduction, motivation letter and research plan
- ✓ Survival Korean is a plus. Already living in Korea is preferred, not required

OBLIGATIONS AND FUNDING

Good to know

- ✓ Work as a **full-time graduate research assistant** in the lab
- ✓ Work honestly and responsibly on assigned research
- ✓ Complete coursework, comprehensive exam and language requirements in 2 years (Ph.D.) or 1.5 years (Master's)
- ✓ Publish in top SCI journals; keep GPA above 4.0 during coursework

Please note

Airfare, visa and relocation costs are not covered. The stipend starts after registration in Korea, Alien Registration Card (ARC) and Korean bank account setup. Delayed months are paid together. Plan to cover your first few months yourself.

DATES

Timeline

**8 Oct, 10:00 KST
to 12 Oct, 23:59 KST**

Online application window

15–19 October

Screening and interviews

By email

Only shortlisted candidates are contacted

Dates may be adjusted. No inquiries or feedback due to time constraints. The top five non-selected candidates may hear about future opportunities by email. This is a prescreening: official original documents will be requested from selected candidates, and all details will be discussed with them.

**READY?**

Apply online

Scan or visit

[**ain.kookmin.ac.kr/gs2027**](https://ain.kookmin.ac.kr/gs2027)

Upload your CV, transcripts, Google Scholar or papers with DOI, plus self-introduction, motivation letter and research plan. This is a prescreening for the lab. Official original documents are requested later from selected candidates, and all details are discussed with them. Applying implies consent to personal data processing.

Opens 8 Oct 10:00 KST · Closes 12 Oct 23:59 KSTTake your time to prepare. For technical upload issues only: gs@ain.my.id
